

## CELLCOMFORT

### Examination table protection Bed protection with barrier layer

- Soft and absorbent with a barrier layer
- Hygienic alternative to textiles, drawsheets and paper-based examination table protection
- Non-rustling and strong material that accommodates movement of >200 kg
- Keeps examination tables/beds fresh and facilitates cleaning
- Latex-free and super absorbent-free, minimising the risk of pressure sores while being a better alternative for the environment
- Convenient and hygienic cardboard packaging with inner bag, reduces heavy lifting and does not take up much storage space
- Meets the requirements for fibre shedding in SS-EN 13795
- CE labelled class 1 MDR (EU) 2017/745
- Made in Sweden from a high proportion of recyclable raw materials

Item no.	Name and description	Size (cm)	Number/box	Absorption/Barrier layer
